Greetings!!!

This is regarding your interview with Amazon for "Software Development Engineer" position.

Job Description:

Amazon.com's Buying Experience team is looking for a Software Development Engineer to participate in the design and development of our multi-tiered highly scalable applications and provide the best possible online shopping and buying experience for Amazon customers. Our Buying Experience program team is comprised of talented developers, testers, program managers, designers and product managers tasked with the singular goal to create THE world's best buying experience. Engineers on this team have the passion to analyze huge product and customer data sets and use this knowledge to innovate timely, focused, on-demand features for Amazon customers. A successful candidate should be highly motivated, willing to take on challenging initiatives, and capable of working both independently and with others as a team. The person should be an active practitioner of engineering excellence: keeping a high bar for quality, consistency, maintainability, site latency, efficiency, security and all the other things that make great software great. In addition, he/she should contribute elegant, practical code to the corpus of the project. The opportunity to make an impact in this role is only limited by the personal capacity of the candidate!

Basic Qualifications:
- Bachelor's Degree or better in Computer Science or related field
- Computer Science fundamentals in object-oriented design
- Computer Science fundamentals in data structures
- Computer Science fundamentals in algorithm design, problem solving, and complexity analysis
- Proficiency in at least one modern programming language such as C#, Java, PERL
- Previous UI development experience and familiarity with JavaScript, HTML, CGI, ASP would be preferred.

Interview Schedule:

Date   :   1st April 2012 (Sunday).

Time   :   9.00 AM.

Venue: **Amazon.com,** No. 3, 2nd Floor, Safina Towers, Ali Asker Road, Bangalore 560 001.

PS: Please carry 1) Hard copy of your resume. 2) Print out of this email.

Looking forward for an acknowledgement email from you confirming the same. Please feel free to

connect with me on questions, if any.

Thanks & Regards,

Soniya
